LIGHT IS POWER

TORCHES THAT MAKE TOMORROW LOOK BRIGHTER

Through the course of the past hundred years, Eveready has set many a shining example of excellence in innovation and technology. It has championed the **frontier of flashlights** and has become synonymous with the idea of portable lighting solutions. Our range of LED flashlights are practical, stylish, and tailored to meet a spectrum of household & outdoor needs.

Eveready was among the first to manufacture the widely popular brass and aluminium torches. We also led the way in introducing India to advanced **digiled technology**. Set up in 2001, the Flashlights Design and Development

Unit has been responsible for introducing more than 72 new, ergonomic flashlight models. Innovation drives us on. It inspires us to be meticulous. The needs of Indian households motivate us to be **India's no.1 torch** brand. It has made us a reliable companion for countless Indians across the nation. Behind every torch is a comprehensive body of market research and consumer feedback. What's more, our manufacturing facilities boast of superior infrastructure. That's the secret behind our superior LED flashlights, available in an assortment of shapes, sizes, wattages and colours.

Eveready, in quick flashes

- Established as TEFCO in Lucknow, in 1958
- Largest torch light manufacturing company in India

CARE FOR YOUR FLASHLIGHT

During Use:

1. Take care to not drop your flashlight as it may lead to damage.
2. If the flashlight becomes hot during use, turn it off and let it cool down before continuing to use it.

After Use:

1. Remove the batteries when your flashlight is not in use for a long period.
2. Clean the flashlight with a soft cloth to remove any dirt or debris that may have accumulated.
3. Store the flashlight in a cool dry place, away from direct sunlight and other heat sources.
4. If the flashlight has been used in wet or damp conditions, allow it to dry completely before storing it.

Battery Care:

1. Always use the correct type of batteries for the flashlight, as specified in the user manual or on the packaging.
2. Remove the batteries from the flashlight if it will not be used for an extended period of time.
3. Store batteries in a cool dry place, away from direct sunlight and other heat sources.
4. Do not mix old and new batteries or different brands of batteries in the same flashlight.
5. For best results always use Eveready batteries.

General Maintenance:

1. Check the flashlight regularly for signs of wear, such as cracks or corrosion.
2. Keep the lens and reflector clean and free of scratches, as this can affect the performance of the flashlight.
